Forward Funding Bonds: Tierra's Expertise in Texas

Focused on maximizing Developer proceeds:

- Delivering the most cost-effective forward funding structures in the market
- **Our deals have an average all-in cost of 3.39%, which is ~216bps lower than the market average of ~5.55%[1]**
- For example, a $50 million forward funding deal can yield a Developer an extra $1 million in net proceeds
- Dedicated to negotiating expenses and assembling a seasoned deal team that accrues the most benefit back to our Developer clients

Unmatched experience across the entire forward funding structure:

- *Micro-level:* Serve as municipal advisor to special districts throughout the country and have expertise in the reimbursement and tax setting process
- *Interim-level:* Understand the leverage capabilities of special districts and the foundational details required to structure a forward funding transaction. Calculate the potential forward funding proceeds back to Developers. Provide guidance regarding the viability of the structure
- *Macro-level:* Lead the numerical analysis for the transactions. Tierra's proprietary cashflow model calculates the projected reimbursement proceeds used to structure a forward funding deal. Coordinate the deal teams

Tierra has worked on some of the most unique and complex forward funding MUD deals. We have served as structuring advisor or municipal advisor on $800 million of deals.

1) *Based on the actual costs of issuance information taken from the offering memorandums for each transaction within this market. Includes all deals through June 2026.*
